Personnel changes in the executive board – Helmut Pusch leaves

DEHN SE

The Supervisory Board of DEHN SE and Helmut Pusch, CSO DEHN SE have agreed, after joint consideration, to end their cooperation. In his almost 30 years at DEHN, he has had an exceptionally positive influence on the company as a whole and on its sales department in particular. Customers, business partners, employees and shareholders perceived Mr Pusch as a representative of DEHN who was always honest and full of integrity. His outstanding professional and market knowledge, his boundless commitment in a wide variety of areas and his high quality standards have characterised him over all these years. Looking ahead, both parties have come to the conclusion that they hold different opinions on fundamental aspects - too different to continue the previously successful cooperation.

Helmut Pusch started his professional career at DEHN back in 1994 following his engineering studies at the OTH Regensburg. After his beginnings in Technical Support, he switched to sales as a Key Account Manager. Between 2001 and 2007, Helmut Pusch was Head of Market Management and Technical Support before becoming Head of the Country Region America / South Africa / Spain and Portugal in autumn 2007. On 1 January 2011, the company transferred the management of International Sales to him. Since the beginning of 2014, Helmut Pusch has been in charge of overall sales at DEHN, initially as Managing Director and most recently as Chief Sales Officer/CSO.

On an interim basis, Dr Philipp Dehn will lead the CSO area in addition to his current duties as CEO until the position can be filled.
