## **Supervisory Board appoints Boris Wolff as new CSO of DEHN SE**

**The Supervisory Board of DEHN SE has appointed Boris Wolff (51) as the new CSO of DEHN SE with effect from 1 January 2024. Prior to this, Boris Wolff was Executive Vice President (EVP) Global Sales, Service & Marketing for SMA Solar Technology AG, one of the world's leading photovoltaic system technology specialists. In his new role, he will report to CEO Dr Philipp Dehn. Boris Wolff succeeds Helmut Pusch (53), who left the company by mutual agreement in July 2023.**

Boris Wolff can look back on over 20 years of experience in sales, project and product management in the automation and photovoltaic industries. After graduating in electrical energy technology, he began his career as a project and sales manager at ABB in 1998. In the years that followed, he held various management positions in sales and product marketing before joining SMA as Vice President Medium Voltage Systems in 2012. Between 2014 and 2020, Wolff was responsible for the Large Scale & Project Solutions business unit as EVP, before being appointed Director of German and International Sales at SMA in 2021.

"Global sales plays a central role at DEHN when it comes to achieving our strategic goals for 2030. So, I am especially pleased that we have been able to recruit Boris Wolff, an experienced sales professional with excellent contacts in the industry," says Dr Philipp Dehn, CEO DEHN SE. "His knowledge of international markets in particular will be extremely helpful for the expansion of our business in North America and Asia as well as for the continued global development of our company."
